

**Addendum to Articulation Agreement for  
Bristol Community College and University of Massachusetts, Dartmouth**

Program: Mechanical Engineering

Bristol Community College and University of Massachusetts, Dartmouth hereby support this addendum to the original transfer articulation agreement between these two institutions. This addendum has been called to order due to a course equivalency change. From here on in, Bristol Community College's EGR 231 and EGR 233 Electrical Engineering with Lab I is now equivalent to UMass Dartmouth's EGR 302 Principles and Applications of Electrical Engineering.

This addendum will accompany the original transfer articulation agreement which, otherwise, remains unchanged.
